

PRE-REGISTRATION NOTICE

Glass Hull Notice GH-PR-001-N1 - change in the event under pre-registration GH-PR-001

Robinhood Chain (chain ID 4663); Robinhood Wallet network-fee coverage

DOCUMENT CONTROL NUMBER	JFD-20260928-PR-00001
CLASS OF RECORD	resolved
DATE	2026-09-25
COVERAGE	2026-09-15 → 2026-10-14
SOURCE FINGERPRINT (SHA-256)	7f63c6714acb8c4c749e24a838df8fa1865183d0508deb52b1ecc3266ac55739
VERIFICATION	https://gh.jetfyul.com/v/JFD-20260928-PR-00001

K. L. Phillips
Chief Executive Officer, Jet Fyul Dynamics LLC

The pages that follow are the full text of this document's exact source, set as readable pages. The SHA-256 printed in every footer is the fingerprint of that source. The seal of this document — its ledger event, both hardware witnesses and its Bitcoin anchor — is recorded at the verification address above, not in these pages.

PRE-REGISTRATION NOTICE GH-PR-001-N1

MASTHEAD

Field	Value
Notice	GH-PR-001-N1 — Notice of a change in the event under pre-registration GH-PR-001
Pre-registration concerned	GH-PR-001, sealed 16 September 2026 (ledger event 2949420); anchored in Bitcoin; published at gh.jetfyul.com/preregistrations/GH-PR-001/
Subject	Robinhood Chain (chain ID 4663); Robinhood Wallet network-fee coverage
Date	Text fixed 2026-09-25 UTC; the seal time is recorded in the seal record on this notice's verify page
Effect on GH-PR-001	None. GH-PR-001 is not amended, re-timed or withdrawn. This notice records a fact about the world that bears on how its result should be read.
Subject notice	Subject not contacted

I. WHAT GH-PR-001 COMMITTED TO

On 16 September 2026, before the event, Glass Hull sealed and published a pre-registration. It fixed a method, with its hash sealed, for comparing measured activity on Robinhood Chain in a window **before** (15–28 September 2026) and a window **after** (1–14 October 2026) the announced end of Robinhood Wallet's network-fee coverage at 11:59 PM ET on 29 September 2026. It also committed to publishing the result, whatever it showed, by 28 October 2026.

In the same document, Jet Fyul Dynamics LLC and Glass Hull committed to submitting no transactions to chain 4663 between 15 September and 14 October 2026.

II. WHAT CHANGED

Robinhood's published terms for the promotion now state an Offer Period running from the launch of Robinhood Chain "**to 11:59 PM EST December 31, 2026,**" and state that the dates may change at any time without notice.

- **Source:** Robinhood support article, "Covered Robinhood Chain network fees in Robinhood Wallet," read 24 September 2026.
- **Archived copy:**
web.archive.org/web/20260924195157/https://robinhood.com/us/en/support/articles/covered-robinhood-chain-network-fees-robinhood-wallet-promo/
- **Independent capture:** hashed and banked, Glass Hull ledger event 3142491.

Before that change, published reporting gave the end of coverage as 29 September 2026. Archived example: Decrypt, captured by the Internet Archive on 24 September 2026 (snapshot 20260924201611).

We do not know when the change was made, only that it was in effect no later than 24 September 2026. We draw no conclusion about why it was made.

III. WHAT FOLLOWS

1. **GH-PR-001 will be carried out exactly as sealed.** Both windows will be measured with the sealed method, and the result will be published by 28 October 2026. Changing its windows or method after sealing is exactly what a pre-registration exists to prevent. We will not do it, even where the reason is a change in the world rather than in our results.
2. **The result will be read in light of this notice.** On the published terms now in force, fee coverage continues through both windows. The comparison GH-PR-001 registered therefore measures two periods within coverage, not a period before and a period after its end. The published result will state this in its first paragraph and cite this notice.
3. **The no-transaction commitment stands as sealed:** no transactions from Jet Fyul Dynamics LLC or Glass Hull to chain 4663 between 15 September and 14 October 2026.
4. **A new pre-registration, GH-PR-002,** will address the end of coverage now scheduled for 31 December 2026. It will be sealed and published **before its own "before" window opens**, with its method, windows, publication date and any no-transaction commitment fixed in advance. It does not alter GH-PR-001.
5. **Predictions in our series The Hull Against the Machine** tied to the original date will be sealed against GH-PR-002's windows. None was sealed against 29 September.

IV. WHY WE ARE SAYING THIS NOW

A pre-registration is only as good as its record when things do not go as expected. The event we registered against moved. We are recording that before the date on which it was due, with the sources, so that the eventual result can be judged against what was known and when.

SEAL AND VALIDATION

This notice is sealed by its exact bytes: UTF-8, LF line endings, one trailing newline. No seal record is embedded in it. The seal record (the seal time, both hardware signatures, the ledger event and the Bitcoin anchor) is published on this notice's verify page, gh.jetfyul.com/preregistrations/GH-PR-001-N1/.

To validate this notice without contacting us:

1. Compute its SHA-256.
2. Look up the ledger event.
3. Verify both hardware signatures.
4. Verify the Bitcoin anchor.
5. Verify the seal at gh.jetfyul.com/preregistrations/GH-PR-001-N1/.
